

Keeping Passengers Safe

As a driver, it is your responsibility to keep your passengers safe.

1 Make sure everyone in the vehicle has their seat belts on before you turn on the engine.

2 Babies and young children should be in an approved and appropriate car seat. Be sure to check it is installed properly.

3 Make sure your vehicle has a current WOF- remember a wof is your cars health and safety check, tyres should have good tread and correct pressure. Windscreen wipers are working and the blades are in good condition.

4 And remember, you are a role model for your children and other young people, so lead by example. You can't tell them not to use their mobile phone, not speed or drink and drive if you are doing these things.
